*Reach Clients Fast Via Fax*

**TOTAL FAX NUMBERS AVAILABLE:**  
**2,854,892**

**FILE PROFILE: U.S. RECORD COUNTS**

D&B's Fax Number File provides fax numbers for more than 3.5 million businesses in the U.S. and Canada (over 250,000 Canadian records). The Fax Number file can now be used to append fax numbers to both customer *and* prospect records. This file is updated on a quarterly basis, and is seeded with information from a third party vendor.

**KEY BENEFITS:**

The Fax Number File has the following key applications:

- Reaching clients by fax typically produces a considerably higher response rate than direct mail in less time and at a lower cost.
- Appending a fax number to a record adds value because it provides another means of contact that is both immediate and effective.
- This information is also vital for smaller businesses that use faxing as a primary method of communication.

Note: It is a violation of federal and state law to send unsolicited advertisements to a fax machine (See United States Code Title 47, Section 227). Anyone violating those laws may be subject to civil and criminal penalties, which may exceed \$500 for each transmission of an unsolicited fax. Dun & Bradstreet provides business data for lawful purposes only and expressly forbids the use of its business data in any unlawful manner.
